

BLACK REUNION a tribute to BLACK SABBATH

... presents the "Reunion"- Tour

Screaming guitars, breathtaking volume, portentous lyrics...

Black Sabbath songs were anthems for the Anti-Vietnam-War and the Anti-Establishment movement of the 1970ies

The original line-up, that wrote history with 8 albums between 1970 and 1978, and since then went separate ways, reunites for a big reunion tour in 1997.

Sirens howl, people freak out, three black contemporaries and their Master of Ceremony appear from the fog to enter the stage, and the unthinkable becomes true.

The Return of the Giants of Metal

What the original Sabbath line up presents is a first class live show.

Recorded during the second night at a home match in Birmingham, the heavy metal oldies rock a sold-out venue so bewitchingly, that one can visually imagine Henry Rollins banging his head hard next to the mixer.

"Black Reunion", a band from Magdeburg authentically presents the magic of this 90-minute live document, performed by a unique band which once founded Heavy Metal and so formed and inspired countless musicians.

The entire classic repertoire from the period of the joint studio albums will be presented in breathtaking versions.

The Sabbath-freak finds himself in an extraordinary Sabbath-party between songs like the anti war hymn "War pigs", smashing neck crushers like "NIB", "Sabbath, bloody Sabbath " and sinister masterpieces like "Black Sabbath" as well as all time favs like "Paranoid" and "Iron Man", where the protagonists unleash everything that you expect from a Tribute to Black Sabbath.

The whole thing partly emerged from "OZZMOSIS", Tribute To Ozz, and those who have seen this band can imagine what such a show is gonna be like.

So let the madness do his work on stage.
